

Collegiate ROV Competition
Subsea Tieback Foundation and SUT-TAMU
Saturday March 4, 2017

About:

The Subsea Tieback Foundation (<http://subseatiebackfoundation.org>) and Society for Underwater Technology Texas A&M Student Chapter are proud to present the first Collegiate ROV Competition at Texas A&M University (TAMU). This event is designed for TAMU students interested in ROV design and controls, engineering, marine sciences, technology, and/or geoscience with the aim to challenge students in a unique way while also promoting creativity, leadership, and teamwork.

The competition consists of 1) a team-focused ROV underwater obstacle course and task challenge and 2) an offshore engineering design challenge.

How:

Final teams will be determined based on the number of registered individuals and corresponding backgrounds to guarantee equality for the challenges. An announcement including team member names and emails will be sent prior to the event in order to give teams the option of meeting for introductions, determining team name, and to discuss strategy.

Registered teams will be assigned a volunteer industry member as their Team Mentor during the event. The Team Mentor will provide feedback and suggestions during the competition and will also rate the team and individual members on Creativity, Leadership, Teamwork, and Feasibility.

Time slots for the ROV course attempt and offshore design project will be provided to each team on the day of the event. All team members are required to attend the entire event. Specific information on the ROV competition and offshore project rules and guidelines will be given on the day of the event as well.

Registration:

Register a mini-team (4) for the Collegiate ROV Competition sponsored by The Subsea Tieback Foundation and SUT-TAMU or register as an individual. Individuals will be assigned to a group and provided necessary contact information of their assigned team. **Please complete and return the Team Registration Form to sut.tamu@gmail.com by February 25, 2017.** Those registering as individuals are also required to submit the Team Registration Form with their name as the Team Leader.

Registration Form
Collegiate ROV Competition
Due: Wednesday, March 1, 2017 to sut.tamu@gmail.com
